Front-End:	HTML CSS - Sass, Less, Bootstrap, Skeleton JavaScript, jQuery Templating - underscore, handlebars, ejs
Back-End:	Node, Express React, Angular, Backbone Sinatra, Ruby on Rails
Databases:	MongoDB & noSQL Postgresql & SQL
Concepts:	RESTful API use & creation, AJAX Workflow - Git/GitHub Deployment - Heroku, DigitalOcean

Foreign Language: Russian (fluent), French (intermediate)

{WORK} EXPERIENCE

General Assembly {Web Development Student} 10/15 - 01/16

A three-month bootcamp focused on creating full-stack web applications using frameworks in JavaScript and Ruby. Projects include: a social flashcard application built in Node using MongoDB with a RESTful API in Express, a travel wishlist/planner in Sinatra featuring an interactive world map, and a memory game written in JavaScript.

Mondo {Account Director} 03/15 - 10/15

Mondo is an IT & Digital Marketing recruitment agency. I was responsible for business development - gaining new clients by connecting with technical hiring managers.

GoHealth {Benefits Advisor} 08/14 - 03/15

GoHealth connects health insurance consumers with the public and private insurance marketplace. My role was a hybrid of customer service and sales.

Edlong Dairy Technologies {Marketing intern} 05/13 - 08/13

Edlong is a food industry manufacturer specializing in flavor concentrates. As an intern, I prepared client trend presentations and coordinated the logistics of the IFT 2013 customer-facing events.

Boster Biotechnology {Sales extern} 01/13 - 08/13

Boster is a manufacturer of biological reagents. My role was to build brand awareness on my campus by cold-calling relevant laboratories. I also built a formal sales training program and initiated hiring.

{EDU}CATION

University of Illinois {at Urbana-Champaign} 05/14

Bachelor of Science in Molecular and Cellular Biology Honors Concentration; Business Minor
Overall GPA: 3.96/4.00 // University Honors (Bronze Tablet)
